## Cookie run coin farming 2019

Number 1- The place it is crucial to find an area that is not very difficult, but easy to access maximum coin. A basic area is Land One because it has an easy access to the number of coins, a simple layout, and several Coin Party Jellies, or Land Two, for the jelly formations can be coin filled. However, in Land Two there are more difficult areas to move in. There are also both cemetery stages in Breakout. They're quick and easy to access, and you can simply reset your run to do over again for free. Land 4-1 is amazing with Cheesecake, Rocket and Mint Choco relay. Fall into a hole when your fireworks start and see the coins fly!2- The biscuits Mint Choco of Cheesecake. It's obvious, really. They both have equal chances to be good. Keep in mind, Cheesecake's invitations give you coins, more with her pet, and Mint Choco's pet creates a coin explosion, giving you more money. Aura cookies like Angel or Fairy may be fine in the early breakout coin areas I called.3- Treasures For the treasures, some are obvious, some you might think creatively for. The Coin blooms and the Silver Mirror is fine, if you receive coins from those. Coin fireworks are also great because it's like a Mini cheesecake! However, the Spring Shoes treasure can also be good. Not for the points, but for the jumping. Need to get a tough coin Mint Choco just plowed right into a pit? Should you reach the ends of that coin of fireworks? There goes ya! Keep raising your level because it will get you more coin percentage bonuses. Keep an eye out for 50% coin increase fire times. None of my cookies or treasures were maximized, but with my combined level and 50% bonus I got over 70,000! Best wishes! Even when you know the best and most effective tricks and methods of coin farming, it is still time consuming and becomes tolerable after a while. The standard way to get coins is to just play the game. Cookies like the Angel and Fairy Cookie will help collect the coins you would otherwise miss with their magnetic aura, along with these are the magnetic treasures - Angel's Feather and the Cookiebox 720 Controller. I really love the game, I played the cookie run (Line (Line ) Since 2014, all my cookies, pets, treasures ..., has been fully upgraded! But when the new version of CookieRun (Oven Break) is released, my CookieRun (Line) becomes garbage because has no new cookies, any stages, ....! I really love to play cookieRun games, also break the season two of the oven! I hope the developer can compensate the conversion of old cookies into CookieRun (Line Version) into some as (Coin, Diamond, ...) for this new Season 2 of CookieRun - Oven Break. Love it. I'll be honest, it's a fun game. I heard about it a year ago when I discovered it was over, wow... see how it has changed over the years, from oven breaker to cookie run, from improvement to improvement. The fandom of the game itself is kinda okay, I'd be wondering what's in store for our favorite ginger. I love the game but it has the problem, when I tap jump the button is stuck, the cookie has jumped until I restore the iPad, so the game back to normal . PIs recovered.
